Dear Madam Lauri,

I am a girl of 12 year. I wrote this to you because I love peace a lot. I wish one day I will be somewhere helping people affected because of war, hunger or floods. I want to be somebody who will be mentioned because of helping people. When I sleep every night I dream that I am in another country doing something. I love peace. When I read about peace I dream I am the person in another world. When I read books about war, my heart gets painful and feels mercy for the people. I wish that I was there during colonial times. I could help people with all my heart even if to die because of peace. I am happy now the colonial rule is over. I pray everyday that the colonial rule won't be back. I will feel very happy when one day the countries in the world will be against the war, hunger and floods. I will be happy if they strengthen and unite. It will be a wonderful world.

Namaste!!!

Peace and love to everyone!!!

Peace Poem

If only we could smell peace
I think it would smell like a rose flower.

If only we could see peace
I think it would be beautiful
like a rose flower.

Because we cannot smell, see or touch peace
It is in our hearts.
