

A Prayer for Peace all over the world

Oh Lord of the Universe. Give light to this world and remove the darkness of the evil. Give people the courage to avoid unnecessary fear, to remove the widespread so that we may live in unity.

We forget the differences like caste and religion and we speak always the truth. Lord, bless our Universe with real freedom, peace and joy.

Loving Father, make our nations a channel of peace, to bring love when there is hatred, to bring pardon where there is injury.

Master, give our nation the strength to console those who are in tears and to understand those who are in confusion. We must also love those in misery and learn to forgive those who are in hatred.

Oh Lord, just hear and attend to my cryings for peace which is not from my deceitful lips but from my heart. I have called upon you and you will hear me O Lord, the Master of All.
